

# CERTIFICATE

## Certificate of environmental compatibility

Compatibility with the environment is of particular importance to ELESTA relays GmbH. All materials we process, the consumables, packaging products, cleaning agents etc. we use have been selected with a view to their eco-friendliness already for many years. Careful handling of the natural resources, lowest possible energy consumption, pendulum systems for input and auxiliary materials as well as optimized recycling processes are a matter of course for us. They extend far beyond what legislation demands.

## Conformity with the EU guideline 2002/95/EG of 27 January 2003 (RoHS)

Our products comply with the legal requirements according to the EU guideline 2002/95/EG dated 27 January 2003 (RoHS: Restriction of Hazardous Substances). None of our products contain any of the substances listed below:

- **Lead, mercury, cadmium, hexavalent chromium**
- **Polybromated biphenyle (PBB), polybromated diphenyle ether (PBDE)**

## Soldering processes and suitability for the process

Our products are suitable for all common soldering processes based on higher temperatures. It is the user's responsibility, however, to check and confirm the suitability for the particular process in the individual case.

## Application consultancy

ELESTA relays GmbH offers its customers comprehensive application consultancy also in the context of the RoHS directives and the environmental compatibility of ELESTA relays products.
